

Mini-Workshops at the Ashram

Following the God-Victory of the Summit University (SU) Seminar “*Experience the Light Within Through the Blessings of Violet Agni*” held in New Delhi on October 13-14, 2018, we thought it would be a good idea to conduct a series of follow-up workshops at the ashram. There were basically three reasons to initiate this spiral both from the attendees and the presenters’ perspectives:

- (1) A great degree of interest was expressed by the attendees to continue learning more about the chakras;
- (2) As presenters, we felt we did not have enough time to present the extensive material during the two dedicated days of the seminar; and
- (3) To help build a greater momentum of light by sharing more detailed information about the spiritual role of chakras in our day-to-day lives.

As a result, we decided to offer a series of workshops on Sundays from 12 noon to 1:30 pm. The first workshop was held on November 11 and the rest will continue through January 21, 2019.

The theme of the 11 mini-workshops is “Balance Your Chakras with Violet Flame and Transform Yourself.”

BALANCE YOUR CHAKRAS WITH VIOLET FLAME AND TRANSFORM YOURSELF!

- Want to turn your life around? Then here's a unique opportunity to learn the difference between the simple rainbow spectrum we are all familiar with as chakra colors, and the Ascended Master portals that carry frequencies and attributes of God's light.
- We will sample types of music that can stimulate our chakras to hold more light, and learn what types of music can cause them to invert their precious energy while deceiving a person with a false sense of exhilaration.
- We will explore how one's life, health, and relationships can change for the better by engaging in our chakras and applying the violet flame to purify them.

Join us for weekly workshops about in-depth studies of purifying and balancing your seven chakras with violet flame.

Schedule: Balance Your Chakras with violet flame and Transform Yourself!

In each workshop, the focus is placed on one of the seven chakras in explaining its spiritual purpose both as receiver and conductor of light from the I AM Presence and how that light is distributed and released through our chakras to bless us individually as well as all life around us.

Our past experience from the workshops we have conducted in India on chakras has shown that the ascended masters' perspective on this subject has been little known or incorrect.

The first hour of a workshop is dedicated to explaining the characteristics of the chakra on which we are focusing, various keys for awakening it, and techniques for purifying and accelerating it to its native vibration. The remaining time is spent giving violet flame decrees and meditating on the sound of the particular musical instrument which is uniquely tied to that chakra. This assists with tuning into that chakra for balancing and purifying it as taught by the ascended masters.

The first workshop was attended by 18 people, more than half of whom had attended the SU seminar, as we had hoped. We noticed a great degree of enthusiasm as evidenced from the kind of questions people usually asked. Praise God!

We are very grateful for all the enthusiasm and support of all kinds directed to our work in India from around the world. It helps to hold the balance and for the turning of a corner as more and more people find the teachings of the ascended masters here. Thank you.

We also send our love and gratitude to the Holy Spirit, beloved Chananda, Babaji, Guru Ma and Lanello for their presence in leading us through this enlightening journey!

India Update

On Sunday November 25, I read the weekly India Today magazine (published in New Delhi) and found the cover story very gratifying. It is entitled, "India's Best States: An Exclusive Annual Survey of the Best and Most Improved Performers, Ranked on 12 Key Parameters." The subject covered the 'state of the Indian States' – somewhat similar to the State of the Union in the USA. BTW, there are 29 states and 7 union territories in India.

The article says, "The (Indian) States are now competing with each other for investments that will set up industries, lead to job creation and pull more people out of poverty. The new mantra is development. If there is any doubt, take a look at the ongoing election campaign for the three heartland states of Rajasthan, Madhya Pradesh and Chhattisgarh. Candidates in these politically crucial states are promising roads, development and jobs and not talking about religion, caste or community. This shifting trend was first noticed in 2013."

The 12 categories surveyed by the India Today team were: Overall, Economy, Infrastructure, Agriculture, Education, Health, Law & Order, Governance, Inclusive Development, Entrepreneurship, Environment, Cleanliness, and Tourism.

It is not surprising that the chelas of the masters and Keepers of the Flame worldwide have been faithfully decreeing and praying on these key issues of India for many years. Thank you dear friends for your prayers and loving support! And thank you God for reaffirming our belief that the decrees do work and the call compels the answer!
